Rushville, Indiana, Thursday Evening, July 7, 1921

EIGHT PAGES TODAY

NO RELIEF FROM HEAT IN PROSPECT

Hot and Fair Weather is Indicated
For Next 48 Hours Though
Sky Threatens Rain

HIGH MARK FOR WEEK 98

Tuesday at Noon Sets Record, Ac-
cording to County Weather Ob-
server—94 Noon Today

No indications for relief from the intense hot weather is in sight, according to the weather bureau, which forecasts a continuation of hot and fair weather for the next 48 hours. The government thermometer in charge of Elwood Kirkwood at Maunzy recorded the highest temperature at noon on Tuesday, when 98 degrees were reached.

The temperatures have been falling this week, but still are in the 90 column. Today at noon the thermometer registered 94, and yesterday it was 96. On Monday the highest mark reached was 97.

Although today was partly cloudy, and the skies occasionally looked like rain, yet the weather man offers no prediction along that line. The cloudy spells today kept the temperature from reaching the high mark established on Tuesday.

The weather bureau for this locality is not making any predictions for any greater stretch than for 24 to 48 hours ahead. Reports received were to the effect that conditions prevailing in the Mississippi and Ohio river valleys give no indication of any other sort of weather than just what is here right now.

Ice Famine Threatens

South Bend, Ind., July 7.—Continued hot weather here for the past several weeks, brought forth a warning from ice and water men late yesterday for residents of South Bend to conserve both ice and water. Although the city is in no danger of a famine, the conservation is necessary it was said to avert a serious shortage.

Farmer Killed by Lightning

Monticello, Ind., July 7.—Lightning struck George Grugle, 18, and killed him as he sat on a binder in a field near the home of his father, Charles Grugle late yesterday. Grugle was killed during a heavy electrical, wind and rain storm which swept White county, unroofing many buildings and uprooting trees.

Heat Prostration Fatal

Logansport, Ind., July 7.—John

CLEGG IS GRANTED PAROLE OF 30 DAYS

Arlington Man Sentenced For Steal-
ing Automobile January 21 Last
Allowed to Come Home

WIFE'S CONDITION CAUSE

(By United Press)
Indianapolis Ind., July 7.—Governor McCray today granted a thirty days parole to Haseall Clegg, age 21, sentenced January 21, 1920 to six months to five years imprisonment for vehicle taking. The governor granted the parole because Clegg's wife will give birth to a child within that time and he wanted to be home at the time.

Clegg was arrested on January 15 at his home near Arlington, and when first arraigned pleaded not guilty, but changed his plea to guilty on January 17, and the sentence was passed on January 21. He was charged with stealing an automobile from a resident at Cumberland, in Hancock county, and drove it to a place near New Salem, where the machine was abandoned.

When he left the machine, some people living in that neighborhood knew him, and this accounted for his arrest. Another charge of receiving stolen goods was nollied when he pleaded guilty to the vehicle taking charge.

His sentence is being served at the Indiana Reformatory, at Jeffersonville.

He Didn't Know War Was Over

Jim Eschlinger Awakes From Nap of
Little Over Three Years at Fort
Smith, Ark., Trying to Outsleep
Rip Van Winkle. Calls For
Chew of Tobacco.

Fort Smith, Ark., July 7.—The news of the great war was gently broken to Jim Eschlinger today. Jim, who evidently started out to outsleep Rip Van Winkle finished a nap of a little over three years in a hospital here the other day.

Jim was told how the world was made safe for democracy.

"What war?" asked Jim blankly.

"Gimme a chew of tobacco."

He stared at the ceiling when told Harding was now the president.

"Harding," he murmured, "gimme another chew of tobacco."

"What do you think of Andy Volstead and prohibition?" Jim was asked.

But he did not get a chance to answer.

Dr. J. C. Bryant interrupted.

"Don't talk about prohibition to him," commanded the doctor. "It may shock him so badly that he'll go back to sleep three more years or it may prove fatal."

Jim was told about the Carpentier-Dempsey fight.

"I thought you said the war was over," he murmured. Then he turned over in disgust and took a little doze.

A flock of chickens (Leghorns) scared Jim into his long slumber.

He was being pushed in an invalid chair when the flock frightened him and he went into a coma.

Hospital attendants fed him with a tube for three years.

ROTARIANS COMING FROM INDIANAPOLIS

Approximately 75 Will be Here Next
Tuesday Afternoon For Game
With Local Rotary Club

CHARLIE CARR WILL PITCH

The Rushville Rotary club is preparing to entertain at least seventy-five members of the Indianapolis Rotary club next Tuesday afternoon on the occasion of the ball game between teams representing the two clubs. The Indianapolis Rotarians will come in automobiles and following the game will be entertained at the evening meal by the Rushville club. The regular meeting of the local club will be changed from noon to evening and will be held at the Social Club.

The Rushville club's team is preparing to meet some stiff opposition because Charlie Carr, formerly manager and first baseman of the Indianapolis American Association team will do the pitching for the visitors. Some former college ball players are on the team.

The Indianapolis Rotarians will arrive here about three o'clock and the game will be called on the West Third street ball grounds at four o'clock sharp. An admission fee of twenty-five cents will be charged and the proceeds will be given to the Woman's Council to be applied to the public school milk fund.

ILL WITH APPENDICITIS

Mrs. J. M. Depweg who has been seriously ill for over a week, was worse yesterday. Her illness has terminated into appendicitis.

"HECK" IS DEAD

"Heck," a small bulldog belonging to Judge and Mrs. Will M. Sparks, is dead and there is mourning among many boys and girls in Rushville whom he regarded as his best friends. "Heck" came from vicious ancestors, but he was the most playful and the most docile creature that ever walked on four legs. He knew no strangers and children were his constant playmates. "Heck" was about five or six years of age. He ate some poison and the end came Wednesday.

"PHANTOM SHIP" SEEN ALONG COAST

Skippers Putting Out From Balti-
more Warned to Look For Ves-
sel Seen by Capt. Giles

IDENTITY IS NOT KNOWN

Wireless Stations Send Warnings on
Theory That it May Solve
Ships' Disappearance

(By United Press)
Baltimore, Md., July 7.—Skippers putting out from Baltimore today were on the watch for a "phantom ship" reported by Captain Giles of the Munson liner Munalbro.

It was stated that department of navigation officials would thoroughly investigate the reports made by Captain Giles that the mysterious vessel with darkened lights and traveling at a great speed suddenly came alongside his steamer at a point 300 miles off Philadelphia, "looked him over" and then darted away into the night.

Captain Giles' statement revived the belief that the vessels which have mysteriously vanished off the Atlantic coast during the last few months, numbering over 20, might have been captured by a pirate craft or a "soviet cruiser."

Skippers along the coast were being advised today of Captain Giles report, and were taking precautions.

Washington, July 7.—Government wireless stations along the Atlantic coast today broadcasted a warning to vessels to be on the watch for a mysterious craft that may furnish a clue to the fate of the "vanishing ships."

The warning was sent out after a telephoned report from Munson line officials at Baltimore that the mysterious craft approached their steamer Munalbro, 300 miles east of Philadelphia, refused to answer signals and then, with lights veiled, dashed off into the darkness.

E. T. Chamberlain, commissioner of navigation today declared that the story of Captain Giles of the Munalbro was the most substantive evidence yet offered of the suspected operations of sea marauders off the Atlantic coast.

The story also gave a new turn to the investigation of disappearance of half a dozen ships off Capt. Hatteras in the last few months.

The craft that approached the Munalbro hesitated to attack a ship of her size. It could, however, successfully attack a ship like the Carroll Deering which sailed ashore last January with all the crew missing, officials said.

Chamberlain said it was improbable that seamen like Captain Giles would "go off on a cock and bull story." He is awaiting a more complete report on the incident from a Munson line representative who is to come here today.

IRISH SITUATION CONFERENCE TOPIC

King George and Premier Smuts of
South Africa, Intermediator,
Meets at Palace Today.

MAY CARRY KING'S MESSAGE

(By United Press)
London, July 7.—King George and Premier Smuts of South Africa discussed the Irish situation today.

Smuts in whose hands as an intermediary lies the fight of the nation, is believed to have reached Buckingham Palace and was with the king one-half hour.

Although the premier did not discuss the meeting, it was understood the king wished to learn from Smuts the result of the conference with Irish republicans and the conclusions regarding the prospect of an early peace. It was also believed that on Smuts' trip to Dublin to participate in the conference between Eamon DeValera and Unionist representatives, as it is now planned, he will bear a message from King George to the conference, possibly urging upon them the necessity for reaching an agreement on a final settlement.

FULL OF FAVORS SAY DEMOCRATS

Republican Tariff Bill is Condemned
in Report of Minority Members
of House Committee

A CAUSTIC DENUNCIATION

Asserted Measure Will Increase
Cost of Living and Will De-
velop Savage Commercial War

(By United Press)
Washington, July 7.—The direct charge that the republican tariff bill is "full of favors" to those business men who made large contributions to party campaign funds last year, was made by democratic members of the house ways and means committee today in a report against the bill.

The democratic attack, which was submitted just before consideration of the bill started in the house at noon, is a caustic denunciation of the measure.

It is asserted that the bill increases the cost of living and will develop into a savage commercial warfare against America's late allies in the war.

The report was presented by Representative Garner of Texas. "The bill," the report says, "is a conspiracy to benefit a few at the cost of all humanity. We regard this measure as a solemn judgment to plunder people of our country and people of every county for the benefit of a few men who have succeeded in usurping the taxing power of the government for the purpose of enriching themselves and, second to finance the usurpation."

"The facts upon which this very serious statement rests are not difficult to establish. The officials who gave the large contributions to the campaign fund establishes beyond all question the source from which were derived the funds displayed by the party which prevailed at the last election."

The two great political parties are fighting over that much worked political issue—the tariff. The fight over the Republican permanent tariff bill in many respects marks the opening of the congressional campaign of 1922 and the presidential contests of 1924.

The challenging Democrats open the bout by making a sweeping attack on the entire bill in a minority report. Submission of this report will be followed by general debate lasting for ten days or two weeks.

Despite overwhelming odds the Democrats plan to fight the battle every step. One of the first clashes probably will be over the oil tariffs. Scores of protests have been received.

OTHER PROPERTY IS SAVED

The residence of J. A. Davidson in Williamstown on the Rush county side, burned to the ground this morning, and the origin of the blaze was undetermined. Nearby residences were saved by a bucket brigade and the flames were confined to the story and half dwelling.

Mrs. Davidson was the only occupant in the house and was aroused by neighbors. The blaze was discovered at daybreak. The residence of Charley Woods adjoins by twelve feet, and the efforts were centered on saving this property and to prevent the flames spreading.

All household goods on the ground floor were saved and a portion of the furniture upstairs was saved. The blaze when first discovered was coming from an upstairs window. Mr. Davidson was in Connerville last night and did not learn of the fire until he reached home this morning.

The dwelling was insured for \$800 and the contents for \$200, which will partially cover the loss. The property was to be sold Saturday, and the deed was drawn up for the sale.

ATTEMPTS TO SHELVE BONUS BILL, CHARGE

Pres. Harding Accused of Using His
Influence to Recommit Measure
to Senate Committee.

MELLON'S LETTER FIGURES

(By United Press)

Washington, July 7.—President Harding today made a personal attempt to shelve the soldier bonus bill by submitting to senators on a visit to the capitol the proposal that they vote to recommit the bill to the senate finance committee and then take a recess, it was learned on the best authority.

Charges that the letter of Secretary of Treasury Mellon relating to the soldier adjustment compensation bill was sent to the senate to kill the bonus bill were made by Senator Pitman, Nevada, today in a speech in the senate.

Pitman declared that the letter is already having effect and has injected politics into nonpartisan discussion of a patriotic duty to veterans.

FARMERS' FORECASTS WERE NOT FAR WRONG

Early Predictions of Poor Wheat
Yield This Season Are Borne
Out by the Harvest

AVERAGES 6 TO 19 BUSHELS

Early predictions of farmers that the wheat crop this year would be far below the normal yield for Rush county is being borne out by reports of yields coming into the county agent's office in the court house.

The banner yield so far reported is a measly nineteen bushels to the acre. The smallest yield on record is six bushels per acre. It is expected that some wheat will average a little better than nineteen bushels to the acre, but the fields which indicate they will do this are few and far between.

Farmers point out that they have room to complain about such wheat drops when it costs approximately \$25 an acre to produce an acre of wheat. It will readily be seen what their loss amounts to with the top production amounting to only \$19 an acre and the minimum average only \$6 an acre.

Farmers are in the midst of the wheat harvest now, most of the threshing rings getting under way this week.

WANTED HIM KILLED TO COLLECT INSURANCE

Mrs. Eva Kaber Sought Husband's
Life so She Could Marry Col-
lege Youth, Witness Says

MRS. MARY WADE TESTIFIES

(By United Press)

Cleveland, Ohio, July 7.—Mrs. Eva Kaber wanted her husband, Daniel S. Kaber, killed so she could collect a \$50,000 insurance policy which he carried and marry a college youth, according to the testimony at the murder trial today, of Mrs. Mary Wade.

Mrs. Wade was the first witness for the state. She related several conversations she had with Mrs. Kaber before Kaber was killed.

During the course of one of these conversations, Mrs. Wade said, Mrs. Kaber said to her: "I have a little matter that I want you to take care of for me."

"When I asked what it was, she said: 'What I want you to do is to get rid of Daniel Kaber.' Mrs. Wade continued, 'When I asked her what she meant by getting rid of Kaber, she said I want you to kill him.'"

"Why do you want him killed?" I asked her. Mrs. Kaber answered "Because the man I am in love with has no money, but he has brains and if Kaber is killed I could collect the \$50,000 insurance policy."

Mrs. Wade testified that she refused to do anything and Mrs. Kaber then said "you are the queerest woman I ever came in contact with."

NEAR EAST APPEAL TO BE COUNTY-WIDE

Organization is Perfected in Each
Township For Campaign to
Collect Used Clothing

CHAIRMEN ARE APPOINTED

House-to-house Canvass in Rush-
ville Next Week, Followed by
Collection of Bundles

A county organization has been perfected to carry the appeal for used clothing for the stricken people of the Near East into the remotest corners of the county. Only women will be engaged in the campaign and they have entered into the spirit of it which indicates that it will be successful.

One or more chairmen for each township were announced today, and the method of making the appeal and collecting the gifts of clothing will be left for each township chairman to work out in her own way.

In the city of Rushville, a definite program has already been arranged. On Tuesday and Wednesday a house to house canvass of the city will be made, at which time the campaign will be explained by the workers.

The women of Rushville will be requested to prepare their old clothing, if they have any, wrap it in some sort of a bundle, and leave it on the front veranda of their home Saturday morning, July -6, at which time automobiles will tour the city and collect the bundles.

The organization by townships, as announced today, is as follows:

Washington, Mrs. C. L. Smullen, Union, Mrs. Tom Bishop and Mrs. Ed Lewark; Noble, Mrs. Charles Newhouse; Richland, Mrs. Walter Patton; Anderson, Mrs. Mary Cowan; Rushville (outside the city) Mrs. Wood Bishop, Mrs. Lewis Krammes and Miss Lucile Priest; Jackson, Mrs. Raymond Gartin; Center, Mrs. Charles Harter; Ripley, Miss Winona Newsom; Posey, Mrs. Ruth Eaton; Walker, Mrs. Clara Gross; Orange, Mrs. Leslie Hungerford.

The question is asked by some people who have been urged to take part in a "used clothing" appeal for the stricken people of Armenia, why a clothing campaign is necessary at this time.

The query is answered by the local committee: In Armenia, Syria, and in various other countries which now comprise what is known as the Near East, there are thousands, even hundreds of thousands of men, women and children who are absolutely without means of self-support. Their homes have been taken from

GARBAGE CONTRACT TO BE LET FRIDAY

Quorum Not Present For Special and
Adjourned Meeting Called For
Last Night

FOUR BIDS ARE SUBMITTED

The adjourned session and the special session of the city council, which was to have been held last night, each was carried over until Friday night, on account of a quorum not being present last night to transact the business.

The council met Tuesday night and had adjourned over until last night to complete the business of the night before, and a special session also was called for the purpose of awarding the garbage contract. Mayor Seudder and Councilmen Maunzy and Abercrombie were the only members present, and the council could not be adjourned, nor could the bids be opened on the garbage contracts.

It is expected that a quorum will be established by Friday night, and both sessions have been carried over until that night.

Four bidders filed with the city clerk for the garbage contract, and the limit closed last night at 7:30. The four bidders are Rex Innis, Silvertown Miller and Fred Lockridge, Martin Clevenger and Frank Hutson.

MAY TAKE PEACE PLANS TO COURT

Validity of Peace Resolution Will be Challenged by Law in U. S. Supreme Court

REP. FLOOD OPENS ATTACK

Doubts if Congress Can Make Peace Until Higher Court Passes on The Question

(By United Press)

Washington, July 7.—Validity of the peace resolution will be challenged in legal battles which probably will be carried to the U. S. supreme court, Representative Flood, Virginia, ranking Democrat on the House foreign affairs committee, predicted today.

He declared that it will never be determined definitely whether congress can declare peace with Germany and Austria-Hungary until the high court passes on the question.

The suits to test the resolution probably will be brought by Germans whose property was seized by the alien property custodian during the war, or may arise through other suits which would hinge on the state of official peace, Flood said.

The Germans it is known, are planning a big legal drive against the federal government to regain their property. The peace resolution recently signed by the president confirms all the seizures, penalties and fines affecting these interests.

Hundreds of lawyers in New York, have been retained by the Germans to fight for the property and the first suits probably will be to set aside the sales to American citizens which were made by the alien property custodian under the authority of an act of congress. These sales involved many of the invaluable dye patents which are now in the hands of Americans.

According to constitutional lawyers in congress the supreme court never has passed directly on whether peace can be effected by congressional declaration. Some indirect references are being referred to as evidencing a belief of the court that congress has no such power.

"I believe the peace declaration is plainly unconstitutional and will be held so by the courts," said Flood.

POISON IVY VINE IS PICNIC MENACE

Plant Has Only Three Leaves While One Frequently Mistaken For it Has Five

TO KNOW IT IS TO AVOID IT

Plant Puts Out Fragrant Blossoms in Summer Which Develop Into Berries in Fall

Washington, July 7.—"Look out for that poison ivy," is an oft repeated cry these picnic days.

"To know the poison ivy is to avoid it, yet to admire it, for its sturdy self-defense," says a communication to the National Geographical Society.

"The poison ivy is a member of the sumac family, having as relatives the vinegar tree, the smooth sumac, and the smoke-bush. Its range reaches as far north as Nova Scotia as far south as Florida and Texas, and as far west as Utah and British Columbia.

"Many people confuse the Virginia creeper with the rascally poison ivy, a confusion which nothing but carelessness in remembering the characteristics of plants could bring about; for the Virginia creeper is careful always to put forth five leaves where the poison ivy has only three.

"The Virginia creeper is condemned as being poison-ivy often with poison ivy is accredited with being a Virginia creeper. Many a Virginia creeper has reached the untimely end of mattack execution by the error, and not a few people have received a painful reminder of their mistake when they have failed to observe that three leaves spell 'foe' in the ivy vine and five leaves 'friend'.

"The poison ivy, or poison oak, as some call it, is a prodigal climber, inclined to run over everything in sight. Even the oak sometimes is almost smothered when the poison ivy reaches its topmost branches and spreads its dense foliage over them.

"It begins to blossom in May and June, its flowers being small, fragrant, yellowish green, and arranged in densely clustered spikes. Toward fall these develop into smooth, white, wax-like berries that often hold fast the winter through. The three leaves are shining green, short stemmed and oval-pointed.

"The poison of this ivy is a powerful, non-volatile oil which penetrates the pores of the human skin and develops hosts of tiny itching, blisters followed by a burning swelling of the affected parts.

"While we very naturally dislike a plant that poisons us when we touch it yet if we investigate the reason for its poison we discover that a vast number of plants develop poisons and near poisons, and when we look over the list we find that we would be rather badly off without them. It is true that most of them are poisonous only when eaten, and that few are poisonous to the touch, but they have all developed these qualities in self-defense.

"Some of them store their poison in their seeds, others in their root-stocks, and others in their roots to protect their progeny from harm. They do not go about looking for trouble or seeking, like the devil whom they may destroy; but they are prepared to resist invasion of the rights of their children. Nux vomica and aconite are two of many such illustrations that might be cited.

"Others develop alkaloids, like the nicotine of tobacco, the quinine of the cinchona tree, and the theine of tea, to protect themselves. Strychnine, digitalis and a hundred and one indispensable drugs that are poisonous in overdoses are the gift of the plant world to man as a by-product of plant preparations for self-defense.

"And so when the poison ivy learned to give off its poison by contact rather than through its own destruction, it simply went to step further than its neighbors. It has arranged its plans of defense, so that it can wage war without first being eaten. In that respect it meets the problem in the same way as the thistle and the thorn, although it fights by subtle stealth rather than open warfare."

DESTROY GLASS TO KILL BEER SIGNS

Buffalo, July 7.—Destruction of thousand of dollars worth of fancy stained glass that adorns Buffalo's erstwhile saloons depends on a decision soon to be made by City Judge Woltz.

Recently a police captain was passing a soft drink establishment that at one time was one of America's many watering troughs and his eagle eye caught sight of a sign which had been worked into the stained window. The sign read: "Wines and Liquors".

The captain arrested the proprietor of the establishment and he pleaded guilty of having art glass bearing such legends. It was argued that such signs are now against the law and Judge Woltz took the case under advisement.

Should the judge rule that the sign is unlawful, it will mean that hundreds of similar fancy glass signs that now embellish soft drink places that—once were saloons will have to be destroyed.

NEAR EAST APPEAL TO BE MADE COUNTYWIDE

Continued from Page One

them; their property has been confiscated; their personal effects have been stolen by the marauders in the opposing armies. Like cattle they have been driven from one point to another. Men who were once considered prosperous; women who were once the leaders in the social set of the country; children who were once attended by nurse-maids are today kin with the men, women and children who never have known anything but poverty. If there were any money in Armenia today there would be no place where it might be given in exchange for useful commodities. But there is no money, and there is nothing which might be of any assistance to the tired, discouraged refugees except the assistance furnished by Near East Relief. Clothing is ever a crying want in that stricken land. Last year 350 tons of clothing were distributed in the Near East. This supply is now exhausted. Frail and delicate women, wan and pale children suffer alike.

Some of the articles of clothing desired are coats, dresses, sweaters, skirts, blankets, petticoats, overcoats, wool shirts, heavy hose, heavy wrappers, woolen gloves and mittens, boots and shoes, felt slippers, shopworn garments, children's clothes of any sort, and sheets for bandages. New cloth by the piece and new garments are greatly desired.

CHICAGO GRAIN
Chicago, July 7.—Opening: Wheat July off 1-4; Sept. off 1-4 Corn July off 1-2; Sept. off 1-2. Oats: July off 1-8; Sept. off 1-2. Provisions irregular.

Personal Points

—Joe Clark was a business visitor in Indianapolis today.

—Clem Kennedy of Terre Haute formerly of this city, is here visiting friends for a few days.

—Mrs. Lenora Blackledge and family left for Winona Lake, for a several weeks outing, this morning.

—Mrs. May Mitchell has gone to Indianapolis for a visit with her daughter, Mrs. Ernest Morris, and family.

—Joe Miller, a former Rushville man who has been visiting relatives in Rushville and at Milroy for a few days, left last night for his home in Warsaw.

—Mrs. M. R. McDaniel and daughter Katherine returned this morning to their home in Chicago, after a visit with Mr. and Mrs. John A. Spurrier of North Morgan street.

—Mr. and Mrs. W. T. Smith and Miss Ada Milhousen of Indianapolis returned to their home Monday evening after a few days visit with Mr. and Mrs. Harry York of near Glenwood.

—Mr. and Mrs. J. W. Brown and son Gilbert, formerly of Rushville, have returned to their home in Hammond, Ind. They were called here by the death of their brother-in-law, M. C. Bass of Morristown, Ind.

—Paul Guffin and Harold Mauzy left last night for their home in Gary, Ind., after being called here by the death of Mr. Guffin's mother, Mrs. George Guffin. His sister, Mrs. Chestina Mauzy, accompanied them home for a stay of a few weeks.

—Mrs. A. N. Marlatt arrived here last evening for a short visit with her daughter, Mrs. J. H. Scholl and family, while enroute home from Kenosha, Wis., where she attended the wedding of her son, Ernest Marlatt, and Miss Mary Remer of Kenosha.

—Miles S. Cox and Guy Mulbarger transacted business in Shelbyville today.

—Mrs. W. E. Wallace left today for Indianapolis where she will make an extended visit.

—Miss Gladys Wallace has gone to Detroit, Mich., for an extended visit with relatives and friends.

—Mrs. Denny Ryan accompanied Mrs. Lena Collier to Indianapolis, yesterday. Mrs. Collier will take treatment at the St. Joseph's Hospital at Beech Grove.

—Mrs. Warder Wyatt and children, Katherine, Mary Louise, Martha and John, left yesterday for Bay View, Michigan, where they will spend the summer.

—Mr. and Mrs. Will Carroll and children, Robert and Betty, of Plymouth, Ind., formerly of this city, and Miss Helen Black of this city, are the guests of Mr. and Mrs. Frank Cannon at Greencastle, Ind. Mrs. Cannon was formerly Miss Esther Black of this city.

**GOOD RESULTS FROM
DRAFT EVADERS LIST**

Since Publication of Deserter's
Names 500 Arrests Have Been
Made and Many are Tried

ENTIRE LIST INCLUDES 60,000

Washington, July 7. — The apprehension of nearly 500 draft deserters since the publication of the slacker lists began has justified the position of The American Legion and veterans of the world war in general in their desire to have the lists published.

More than half of the 60,000 names of draft deserters have been published, according to information obtained by officials of the Legion. The unpublished names are being released at a rate that should complete their publication in the next five weeks.

Of the approximately 500 deserters who have been apprehended, about 200 have been tried and 80 convicted. Members of The American Legion have assisted in running down the deserters.

Both Secretary Weeks and Adjutant General Harris have pointed out to American Legion officials that in addition to bringing hundreds of deserters to justice and branding thousands more, the publication of the lists has cleared the service records of men who served or who had just cause for exemption, but who failed to comply with some requirements of the selective service act and were therefore listed as deserters.

* Charles Kettleborough *
* Is Always on The Job *

Indianapolis, Ind., July 7.—The old theory that when a man gets a position in the state house or public office he virtually quits work and has a vacation is not true in all state offices, especially in the office of Charles Kettleborough head of the legislative reference bureau.

Kettleborough, who has been head of the bureau for four or five years is always on the job, from sun up to sun down, all day Saturday Sunday and Holidays.

When some one does not remember when a certain law was passed by the legislature or when so and so was a representative, or when James A. Mount was governor of Indiana this information can be obtained from Kettleborough—and it does not take him half an hour to look it up. Questions pertaining to persons, laws and departments concerning Indiana directly or indirectly Kettleborough can answer momentarily.

Motion picture shows never enter into the life of this man who prefers to sit in his office and read about the bills passed by the Georgia legislature or the League of Nations. Laws and history are fiction to Kettleborough, where the average man of his age would rather go to a movie or read a Ring Lardner story about a boob prize fighter.

Like the hermit that disappeared and went into his cave and lived by himself Kettleborough is a bachelor and lives alone. He is always busy and never wastes the states valuable time.

WALLACE RETURNING HOME

Paris, July 7.—Hugh C. Wallace, retiring American ambassador to France, left here Wednesday to return to the United States on the Olympic. About a hundred friends bade him farewell including Marshal Foch, General Weygant, former premier Peret.

**TO EXAMINE STATE'S
ELECTRIC EQUIPMENT**

**Purdue Engineers Will Visit All State
Institutions to Test Equipment
Being Used**

TO MAKE RECOMMENDATIONS

(By United Press)

Indianapolis, Ind., July 7.—Examination of the electrical equipment of all state institutions, to ascertain whether or not the state is getting a sufficient amount of current for the equipment used will be made in the near future by electrical engineers of Purdue University, it was learned here today.

It is understood that the survey of all state institutions to ascertain what will be made at the request of Governor McCray.

The governor it was said is not satisfied with the showing made by the machinery now used for this purpose. Too much coal is being used to make the electrical energy, and the governor with his campaign pledge of economy, is contemplating having the investigation made to ascertain what improvement should be made.

Should the investigators find that any changes should be made it is

likely that the governor will recommend to the legislature the changes that are necessary.

It is understood that some institutions have reported they are not getting the required amount of electrical energy from the motors and dynamos that are being used.

This examination would also tend to show the legislature what condition the mechanical equipment of the institutions are in and what it would have to appropriate to put them in repair.

THREE DEFENDANTS LET OUT

**Trio Accused in "Ice Trust" Suit
Successful on Motions to Dismiss**

(By United Press)

Indianapolis, Ind., July 7.—Suits against three defendants named in the state's ice trust busting efforts were dismissed today when Special Judge Eichorn of Bluffton opened hearings on Attorney General Lesh's application for restraining order to prevent operation of an alleged trust in Indianapolis.

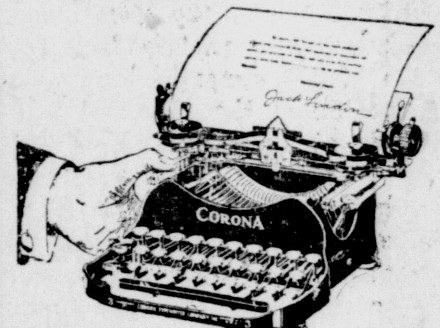

This left ten firms and one individual named in the case. It was thought the judge would rule on the application this afternoon.

Wanted: Old Clothing

Picture if you can, as many as fifty thousand men, women and children, walking miles through the snow and mountains without a single piece of wearing apparel. This happened last October, following a continuation of Turkish atrocities upon the Armenian race. Fifty thousand were thus deported, but thousands and thousands died from exposure, and thousands of operations were performed on frozen limbs.

Did they get food, clothing and shelter? No. Supplies were low. They got some soup, some black bread, and for clothing they got old flour sacks and burlap bags. For shelter they were turned out again into the mountains and the bitter winter because there was no room for them and only sufficient supplies left for the 10,000 orphans in that section. How many of them later died from exposure, no one knows.

This is the condition which the people of Rush county are asked to help without any great sacrifice on their part. They are requested not to dig into their purses for money, but to gather up used clothing which they have discarded and which has no great money value.

Surely no person capable of answering it, can deny this appeal. Very little effort is required to meet it. In an hour's time, no doubt, the average person can collect, clean and prepare in a bundle all of the used clothing they have in order to help some sufferer in the Near East who is in dire want.

It is not conceivable that any man or woman in Rush county can fail to heed this call for service when to answer it means only a few hours work.

A Practical Man

Secretary of War Weeks is carrying out practical economy in his Department through the elimination of rented quarters at various points and the concentration of the army establishments in government-owned buildings. Since March 4, Secretary Weeks has ended 349 rent leases, thus saving the government \$31,531 monthly in rentals. In a few days the 10,000 acres of land upon which is located the chemical warfare plant at Lakehurst, New Jersey, will be advertised for sale, and the equipment moved to the Edgewood arsenal. The same policy will be pursued as to other government plants suitable for manufacturing purposes, and bids will be opened for their sale. One big item of economy was the removal of the headquarters of the second army corps at Boston from rented quarters to the army base, thus saving \$50,000 annually.

No More Bureaus

It is the sentiment of the senate interstate commerce committee that solution of the railroad problem should not be attempted through the creation of additional agencies of the government. Witnesses have appeared before the committee urging

that special phases of the railroad question be dealt with by separate organization. There is a bill pending that seeks federal incorporation of the national railway service corporation to advise the interstate commerce commission. "You propose to multiply agencies," exclaimed Senator Frank B. Kellogg of Minnesota to one of the proponents of the measure. "Washington is full of agencies collecting useless information."

A wave of sickness is expected to engulf this country when the brewers get down to manufacturing authorized beer with a kick for purely medicinal purposes.

A new continent is said to have been discovered in the arctic regions in which no booze has ever been made or sold. It is uninhabited.

WAR COST ITALY
81 BILLION LIRE

Italian Statisticians Have Just Arrived at the Total Cost of The Conflict to That Country

SPENT 67,600,000,000 LIRE

Italy's War Indebtedness as Just Compiled by Statisticians Reaches 62,000,000,000 Lire

By HENRY WOOD

Rome, July 7.—Italian statisticians have just arrived at the total cost of the war to Italy.

The figure is placed at 67,600,000,000 lire, although this is admittedly far below the complete cost.

The figure was arrived at by finding the difference between the expenditures of the Italian Ministry of War and the Ministry of Marine for the period beginning August 1, 1914, and ending December 31, 1920, and the expenditures of the two ministries for the preceding corresponding period of peace conditions.

During this peace period the two ministries spent a total of 6,600,000,000 lire while the total expenditures for the war period mentioned above were 74,300,000,000 lire.

According to Italian statisticians, however, the difference of 67,600,000,000 lire still lacks about twenty per cent of what the war cost Italy, because, in addition to the money actually spent for war material, the maintenance of the army and navy, other derivative expenses have been thrown onto the government such as the war pensions and assistance to the families of the mobilized.

With this additional 20 per cent added to the actual war expenses, the total cost of the war to Italy would therefore reach approximately 81,000,000,000 lire.

As a consequence of this war expenditure, Italy's war indebtedness, as just compiled by the state statisticians, reaches about 62,000,000,000 lire. Of this total, about 41,000,000,000 consists of internal obligations and the remaining 20,500,000,000 in foreign debts. The former costs Italy in interest 2,200,000,000 lire annually, while the foreign war debt costs about 2,200,000,000 lire annually.

CONGRESS TODAY

House

Consideration of permanent tariff bill started on the floor with general debate.

Agriculture committee considers bill regulating condensed milk business.

Veterans of world war ask federal charter in hearing before judiciary committee.

Senate

Naval sub-committee to resume inquiry into chamberlain court martial. Soldier relief hearings to continue.

Agricultural committee to report Capper-Tincher anti-grain gambling bill.

Senate to consider soldier bonus bill.

Children Beat Slot Machines

New York, July 6.—Here's how New York youngsters were making 2,500 per cent profit on investments of one cent. They placed pennies on street car tracks and dropped the flattened coins into stamp vending machines, getting a quarter's worth each time.

The scheme was broken up when a policeman arrested four, ranging in age from ten to twelve.

Has An Amendment For Soldiers Who Die Without Gov't Insurance

Oregon Representative Endorses Measure Providing Payment of Insurance Premiums For Disabled Soldiers Who Die and Who do Not Claim Compensation For Disability Incurred While in Service

Washington, July 7.—Representative Nicholas J. Sinnott, of Oregon, chairman of the House Committee on Public Lands, who has a big heart for the needs of the soldier as well as a voice to portray them, has succeeded in securing the adoption of an amendment to the Sweet bill providing that in case an insurance policy has lapsed where a soldier has died who was entitled to draw compensation from the government, and where he has not drawn that compensation and has not claimed it, that that compensation shall be applied upon the insurance policy and that the insurance policy shall be reinstated.

"It will insure to the benefit of the wife or mother of the soldier", declared Sinnott. "We should be

guided in these measures not by the failure or the default of the soldier to take advantage of the technicalities of the law, but we should be guided by our duty and by our moral obligation to the soldier's mother, to the soldier's widow—a soldier who, forsooth, through ignorance or inadvertence, has permitted his policy to lapse.

"I have the case of a soldier who was discharged in February of 1919. Harold J. Taylor, of Lakeview Ore. He died in December, 1919, of tuberculosis. He was found by the bureau of war risk insurance to have been a temporary total disability from the time of his discharge. A month after he was discharged he endeavored to work, but immediately fainted. He was sent to the hospital in San Francisco and died in December, 1919.

"Every doctor who considered his case found that the tuberculosis was of service origin, that from the day of his discharge he was unable to work. He did not even put in an application for his compensation.

Had he done so he would have been entitled to \$90 a month from the date of his discharge. Yet he defaulted on that and defaulted upon his insurance that the others receive. It through ignorance or through some inadvertence.

"And now his wife is denied the insurance that the others receive. It seems to me that the gentleman's amendment is a most meritorious one."

GASOLINE TORCH EXPLODES

Mrs. Harry Stall of Muncie Fatally Hurt—Son Burned

Muncie, Ind., July 7.—Mrs. Harry Stall, 32, was fatally burned and her son, Harold, age four, suffered burns about the face and body when a gasoline torch being lighted by Mr. Stall at his tinshop, exploded, the flames enveloping mother and son. Mr. Stall extinguished the fire by throwing both to the ground outside the shop and rolling them in the grass. Both were hurried to a hospital and attendants reported today that Mrs. Stall could not live. The family moved here several months ago from Cambridge, Ohio.

Why Not Let Us Do Your Baking?

IT SAVES YOU TIME
IT SAVES YOUR HEALTH
IT SAVES YOUR MONEY
IT SAVES YOUR DISPOSITION
IT SAVES YOUR VITALITY

The expenditure is small, but the saving is great.

Wilkinson's Quality Bake Shop

We invite the ladies of this community to come in and talk over the matter of having us do their baking during the warm months.

You will appreciate being able to sit down to a meal yourself without feeling as if you had just stepped out of a furnace.

Don't Overlook Any Diamonds

Kimberley was going back. The farmers were disgruntled. They said they couldn't eke a living from the rocky soil.

And all the time, their ragged youngsters were playing with diamonds!

But the farmers didn't know. Many of them died poor. They thought the priceless gems were pebbles.

Some folks are just like those Kimberley farmers. They seek opportunity in some distant place and overlook the wealth that is daily within their grasp.

Advertising is a diamond mine of opportunity. It tells of values you would probably overlook if it was not there to guide you.

Don't miss the advertisements in this paper.

THEY SAVE MONEY —
AND MAKE IT FOR YOU!

Kidney and Bladder Troubles Conquered or Money Back

For 40 years, said Dr. Carey, I have been prescribing Marshroot for kidney and bladder sickness and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price, on the money back if dissatisfied plan.

Beware of kidney disease—thousands die of it every year who ought to be enjoying the blessing of life and health. Watch the symptoms. If you have specks floating before the eyes, puffy eyes, clammy feet or moist palms, backache or sideache, you ought to get a bottle of Dr. Carey's Marshroot right away.

It has wonderfully benefitted tens of thousands of cases of kidney and bladder troubles and is the medicine you can always depend upon. Results are guaranteed.

NOTE.—Dr. Daniel G. Carey was a practicing physician for many years and his great Prescription, Marshroot aided thousands of sufferers from kidney and bladder troubles. Hereafter you can always get this effective Prescription at all reliable pharmacists the country over. Keep in mind the name, Dr. Carey's Marshroot prescription No. 777. No other medicine can take its place.

TRUCK FEVER HITS MOST STATES HARD

Senator Wadsworth Believes Free Distribution of Government Property Has Gone Far Enough

SHORTAGE OF MOTOR TRUCKS

Law Authorizes Secretary of War to Turn Trucks Over to Agricultural Department

By L. C. MARTIN (U. P. Staff Correspondent)

Washington, July 7.—When the war was won, so many American cities and villages wanted captured German cannon and machine guns that it looked as though Uncle Sam would have to order a lot of them from the Krupps to give away. It now develops that this demand for souvenirs was paralleled by a demand for more practical things, which has "bankrupted" the War Department in one item, and has bitten deeply into its supplies in other ways.

Motor vehicles, trucks mostly, lead the list. The free distribution of these to the states is a "scandal," Senator Wadsworth, chairman of the senate military affairs committee declares.

"I may be utterly alone in my opinion," Wadsworth said, "but this debauch of the free distribution of government property has gone far enough. I can well understand the appetite that is aroused in a State Highway commissioner when he understands that the war department owns a lot of trucks and that there is a law authorizing the secretary of war to turn those trucks over to the agricultural department, free of charge, to be given the states."

"The drive for these trucks has ramifications all over the country. All they have to do is 'press the button' and the people interested in the building of roads write and wire asking that the war department be directed to turn over trucks."

As a result, Wadsworth said, the war department is short in motor trucks required for its own peace time uses 1505 truck and 487 passenger cars and has some 4000 automobiles on hand that wouldn't run and can't be sold for anything but junk.

The motor truck "pork barrel" has yielded the states 26,423 trucks and spare parts valued at \$7,271,735, Wadsworth says. The allocations by states range from 39 to Delaware, up to 1047 to Pennsylvania. New York state got 1024; Ohio, 620, and other states from 100 to 800 trucks apiece. Only a few states have failed to get some trucks, Wadsworth's list shows.

Some of them not only got motor trucks, he says, but canned goods from army stores left after the war and other supplies.

FEARS NO OPPOSITION FOR NEW'S REELECTION

Harry G. Hogan, Party Leader, Says He Believes Senator Will Have Clear Way for 1922 Election

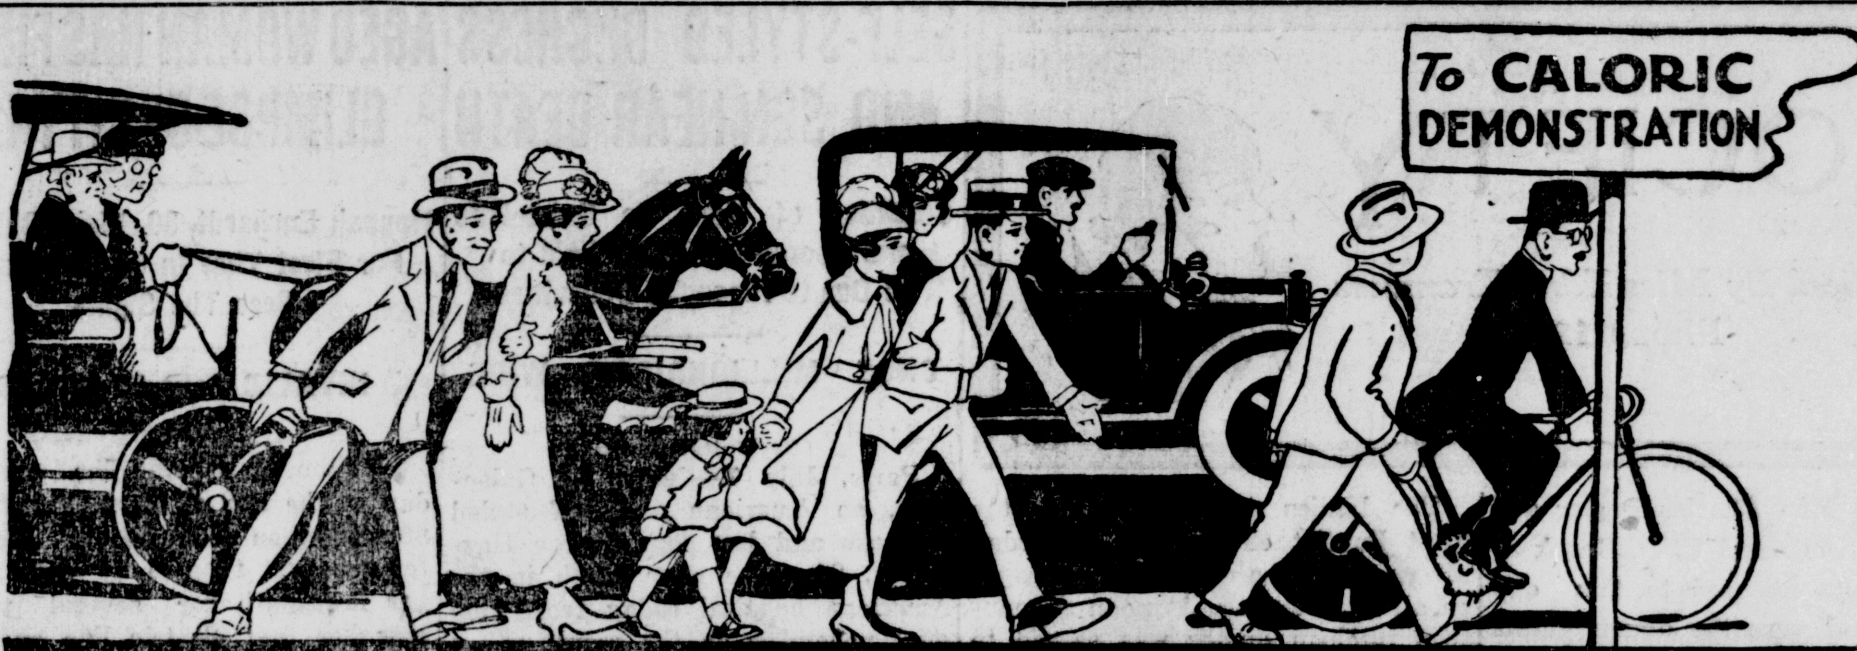

IS A COMPETENT SENATOR

Washington July 7.—That the Republicans in Indiana generally will resent any opposition to Senator Harry S. New for renomination for United States Senator, is the conclusion reached by Harry G. Hogan, of Fort Wayne, a party leader of high standing, who was recently interviewed by the Indianapolis correspondent of the Cincinnati Enquirer.

"My conviction is that the people of Indiana look upon Senator New as a very competent Senator," said Mr. Hogan to the Enquirer correspondent. "That being the case I am sure that most of them will resent any attempt to defeat him. I am convinced further that a majority of the active members of the party will feel that an effort to defeat Senator New in the primary election next year will result in bitterness and party strife."

According to the correspondent, Mr. Hogan to the Enquirer correspondent of Senator New's campaign, but his business interests at Ft. Wayne are such that he will have to remain in that city most of the time. However, he will look after the Senator's interests in northern Indiana. Mr. Hogan was the Indiana manager for Major General Leonard Wood in the presidential primary contest last year.

Some people say that sanitation doesn't pay. Well, it doesn't pay doctors and grave-diggers, says the U. S. Public Health Service. Be sanitary; seek health before you need it.

MANY MOVIE HOUSES STARTED BY SOVIET

New York, July 7.—Traips equipped with motion picture machines and films are being run through Siberia, giving exhibitions at each railroad station, according to Julius Kohner, Czecho-Slovakian cinema authority and publisher of "Filmsechau" one of the well known international trade journals, just arrived in this country.

The Soviet government is strongly in favor of the development of motion pictures and is paying great attention to the community effects of "movie" theaters, he says. The Lenin-Trotsky government has encouraged the erection of picture play houses, which are operation by a commission of the Soviet government.

There are today some 3,000 picture houses in Russia and more are being added constantly, Kohner declares. A very large opening awaits American pictures in Russia as soon as trade agreements are established between that country and the United States. Virtually no production is going on in Russia.

THIS TIME LAST YEAR

Pittsburgh completed a triple play against the Phils. Lefty Cooper caught a fly, threw to Caton at second and he completed the play to Grimm at first. With the score tied in the eighth inning, the Cubs scored five runs and beat the Cards. The Athletics beat the Red Sox twice.

Watching The Score Board

Yesterday's hero:—Grimm. The Pirate first baseman doubled in the thirteenth inning after Cutshaw had singled, beating the Cards 3 to 2.

Barleigh Grimes not only baffled the Giants from the box, but he got a homer, a double and two singles, helping Brooklyn win 11 to 4.

The Braves mauled three Phil pitchers and won 11 to 6. Konetchy in his first game with the Phils got three hits and drove in four runs.

Red Faber let the Tigers down with four hits and the White Sox won 2 to 0.

Washington and the Red Sox split a double header. The Sox won the opener 2 to 1 in 12 innings, but dropped the second 1 to 0.

SOCIETY

Edited By Miss Edna Krammes
Phone 1111

Mr. and Mrs. Charles Dagler and daughter Leone and C. D. Shook of Terre Haute motored to this city Sunday and were the dinner guests of Mr. and Mrs. Nile Siders.

The W. R. C. Penny Social held an all day meeting Tuesday at the home of Mrs. Phoebe Phillips in Arlington. At noon a delicious fried chicken dinner was served to twenty-five members and visitors. The afternoon was enjoyed socially.

A wedding of interest to many friends in this city was performed Tuesday afternoon at four o'clock at the home of Mr. and Mrs. H. E. Remer of Kenosha, Wis., when their daughter, Miss Mary Remer, became the bride of Ernest F. Marlatt, son of Mrs. A. N. Marlatt of this city. The following account of the wedding was published by the Kenosha Evening News:

Against a background of greenery, flecked with summer flowers in hues of heliotrope and rose, Miss Mary Remer, daughter of Mr. and Mrs. H. E. Remer, was married to Ernest F. Marlatt, son of Mrs. A. N. Marlatt of Rushville, Ind., at the Remer home, 573 Grover street, at four o'clock this afternoon. The nuptial vows were put by the groom's twin brother, the Rev. Earl B. Marlatt of Boston and Kenosha but the ceremony proper was pronounced by the Rev. O. W. Taylor, pastor of the Park Avenue Methodist church.

The bridal procession was led by the ring-bearer, Byron Eugene Marlatt, youngest son of Mr. and Mrs. W. T. Marlatt. Dressed in a sailor suit of braided pongee, he carried the wedding ring in a white rose. Master Marlatt was followed by the groom and his attendant, Attorney G. A. Mittlestaed. The retinue was completed by Miss Remer, her father, who gave her away, and her maids, Miss Alice Vivian Webbe of Chicago, maid of honor and Miss Gladys Bain, bridesmaid.

Miss Remer was a winsome bride in a frock of cream-white kitten's ear satin, paneled front and back and with touches of cream silk lace with a lining of orchid. Her white satin hat had an underbody of orchid and wreath of lavender sweet peas. The cream-white note was repeated in "Cinderella slippers" of white and cloth-of-gold. Miss Remer's flowers were a shower of white roses, lilies-of-the-valley and orchids. The same delicate tints were seen in her going-away frock, sand-colored Canton crepe, sand-colored stockings and slippers.

The wedding dinner, to twenty-seven guests, was served at the Elks Club. Sweet peas and gladioli, in shades of pink and lavender, and Columbia roses, carried out a decorative motif at the club similar to that for the nuptial service. Individual corsages and boutonnières of bride's roses were presented as favors. Out-of-town celebrants were Mrs. A. N. Marlatt, Miss Mary C. Marlatt, Dr. and Mrs. I. E. Brenner, Winchester, Ind.; Mrs. F. V. Miller, Connersville, Ind.; Mrs. P. P. Willis, Toledo, O.; Miss Mary Ann Scholl, Rushville, Ind.; Miss Alice Vivian Webbe, Chicago.

The Remer-Marlatt nuptials have been anticipated as an interesting social event as the couple is prominent in the younger sets of the city.

Mrs. Marlatt is an alumna of Waterman Hall, Sycamore, Ill., where she was a member of the Sigma Pi sorority. She was also a student at Carroll College, Waukesha, Wis., where she was active in social and dramatic events. During the war and the years immediately following it she was employed at the offices of the Kenosha Evening News.

Mr. Marlatt is the city editor of the Kenosha Evening News. He is a son of the late Rev. A. N. Marlatt, for forty years one of the most prominent clergymen in the Indiana Conference. He graduated from De Pauw University, Greencastle, Ind., with highest honors in 1912 and later did post-graduate work at Harvard. He was superintendent of schools at Manilla, Ind., for five years preceding his affiliation with the Kenosha Evening News. During the war he was a lieutenant of the field artillery. Mr. Marlatt is a member of the Delta Kappa Epsilon fraternity and of the Masonic and Elks' lodges.

Mr. and Mrs. Marlatt are making a trip on the Great Lakes and after August 1st will be at home at 505 West street.

The Ladies Aid Society of the First Baptist church met yesterday afternoon at the church and enjoyed an all day meeting. At noon a bountiful pitch-in dinner was served to those present. The day was spent in cleaning the church.

DISARMAMENT HINGES ON JAPANESE ALLIANCE

Renewal of Pact in Anything Like Present Form Will Prevent America From Taking Lead

ALREADY STUMBLING BLOCK

(By United Press)
Washington, July 7.—Disarmament hinges on the Anglo-Japanese alliance, it was stated in authoritative quarters today.

A renewal of this pact in anything like its present form probably will make it impossible for the United States to take the lead in calling for a disarmament agreement among the principal naval powers—Great Britain, the United States and Japan.

Already this alliance between Great Britain and Japan may have proved a stumbling block to plans of this government for a disarmament agreement.

The continuance of the alliance may be the direct cause, it is suggested in official quarters of why President Harding apparently has made no progress in his movement for disarmament.

Officials here hold that the United States could not initiate steps for disarmament or even participate in any such movement if it is started by another nation because:

The Anglo-Japanese alliance is eminently a military pact.

It provides that should either Great Britain or Japan become embroiled in war with a third power, the other contracting party is obligated to come to the aid of the power that goes to war.

THE "GASOLINE BABY"

Chicago, July 7.—Enter, the "gasoline baby" with a new con game. Detectives today were watching the demure short skirted bouvelard vamps after several business men had been successfully trimmed of the old ten spot.

This is the way it's done: "Can't I give you a lift?" says the staid business man riding home on the boulevard.

"Why, yes," shyly answers the dainty maiden.

They discuss what a blessing a bottle of gin would be this hot weather until they reach the end of Lincoln Park.

"Let me out!" shouts the gentle maiden.

"How come?" asks the man.

"Give me ten bucks or I'll scream" she hisses.

Man thinks of his family.

Girl gets the money.

IS FULL COMPENSATION

Being Called "Mother" Reward For Teacher, Convention Speaker Says

(By United Press)
Des Moines, Ia., July 7.—Full compensation for a life of service as a teacher, comes when half the town calls you "mother." Mrs. Phoebe Matthews of West Somerville, Mass., told the convention of the National Educational Association here today.

Although teachers do not get much pay, she pointed to the reward she received in her own home town where children and grownups call her "mother;" where street car conductors refuse to take her money and where the mayor dismisses dignitaries to admit her.

"I am probably the oldest teacher in the country," she said. "I am old fashioned, believing in the Bible, discipline and in making children mind."

SELF-STYLED DUCHESS AND SON NEAR DEATH

Condition of Mme. De Guise-Hite and George Harbough Said to be Due to Financial Difficulties

ONCE MILLIONAIRE'S WIFE

(By United Press)
Paris, July 7.—Mme. De Guise-Hite, an American and self styled Duchess and her son, George Harbough, 24, were near death in the American hospital today from veronal poisoning as the result of a suicide past.

The suicide attempt, which was made Tuesday night, was discovered yesterday morning, but was only made public early today. It was said to be the result of financial difficulties.

Mme. De Guise-Hite recovered consciousness momentarily this morning and asked if there had been a cable from her first husband, George E. Harbough, a millionaire, formerly of Cleveland, O., who was remarried since the divorce and is now living in El Cajon, California.

After being divorced by Harbough the woman married Cleveland De Guise-Hite, a portrait painter of London and claimant of the title of duke in France. He had lived in the United States several years.

Mme. De Guise-Hite was divorced from her second husband in 1914. Since then she had divided her time between Paris, London and the United States. Her son, George, arrived here in April, expecting to take a position with Morgan, Harjes and Company, bank, but the plan did not materialize and he, in desperate financial circumstances, became more despondent daily.

NO RELIEF FROM HEAT IN PROSPECT

Continued from Page One
McGinnis, farmer, died from heat prostration at his home south of the city late yesterday.

Four Persons Prostrated

Anderson, Ind., July 7.—The torrid heat of yesterday prostrated four persons here. Doctors report that babies are suffering.

AGED WOMAN HAS FIRST GLIMPSE OF CITY LIFE

Hannah Earhardt, 86, Visits Bluffton For First Time in 60 Years and Sees The Sights

INVALID FOR 20 YEARS

Bluffton, July 7.—The greatest day in the life of Hannah Earhardt, 86 was when she came to Bluffton for the first time in 60 years; had her first bath for several years; saw her first electric line and had her first trip over the paved streets.

Hannah came to Bluffton to have doctors treat her leg, which was broken when she was kicked by a cow nearly twenty years ago. The leg was never treated by a doctor and Hannah has spent her last twenty years in an invalid chair.

Mrs. Earhardt, who lives only a few miles from the city has not worn a shoe in six years and has not had her hair combed for several years. When she arrived at the hospital her hair was clipped because of its matted condition.

The local Red Cross heard of the distress of Mrs. Earhardt and persuaded her son to have her removed to the hospital here. She strenuously objected to the nurses giving her a bath it was said.

Amusements

Plenty of Action

Forrest Stanley, who plays the leading man's role in Cecil B. DeMille's Paramount Picture which will be shown at the Princess for the last time tonight, wears Mr. DeMille's expensive overcoat in several scenes of the picture. Thereby hangs a tale.

At the climax of a dramatic scene, Forrest Stanley stages a realistic hand-to-hand fight with Theodore Kosloff, the famous Russian dancer and actor who is also one of the principals of the cast. Among other bits of action in the scene, Kosloff throws a table lamp at Stanley. Incidentally, Stanley appears in

the overcoats which is Cecil B. DeMille's prized possession.

In the filming of this episode, Forrest Stanley volunteered to get in the way of the thrown lamp, actually taking the blow and thus adding to the realism of the scene. Cecil B. DeMille vetoed the suggestion in the following terms:

"A good doctor might be able to fix you up after the excitement, but I doubt if any tailor in the world would be able to put that coat in

shape. I might risk a leading man alone or the coat all by itself, but not the combination. Dodge the lamp!"

And he did!

ABANDONS ALASKA TRIP

President Harding Will Remain in
Washington This Summer

(By United Press)

Washington, July 7.—The United States government has decided to remain in Washington this summer.

President Harding, it was learned today, has about given up hope of going to Alaska, a trip which he planned to make if congress adjourned.

A poll of cabinet today showed that all of the members have made plans to stay here.

The Senate today was on record against a recess. House leaders said they planned to work ahead on tariff and taxation.

GERMANS DO NOT HATE THE ENGLISH

Attitude Changes Because of British
Position in The Upper Silesian
Question

ENGLISH ALSO CHANGING

They Have Better Opinion of German Than Pole Because He Has
Obeyed All Orders

By CARL D. GROAT
(U. P. Staff Correspondent)

Oppeln, Upper Silesia (By Mail)—The one-time German hate of England has turned to something akin to love. Proof of this is to be found anywhere amongst the German population of Upper Silesia. One needs only to ask a German what he thinks about the English attitude toward Germany in the Silesian question to learn that he is highly pleased. And one needs only to see how the German, for the most part, has willingly obeyed any and all commands or wishes of the English controllers to learn that the hymn of hate has turned to praise.

And, while the Englishman hasn't learned to love the German, he has a better feeling for him hereabouts than he has for the Pole or even for his allied brother, the Frenchman. In fact, the relations between Frenchmen and Englishmen in this neck of the woods are about as pleasant as those of a couple of strange bulldogs, even though the outward conduct and proprieties are observed.

I talked the other day with a high English officer in one of the unpleasant communities of this whole topsyturvy district.

"The Germans were threatening to start an offensive, and were even talking of beating up the French," he told me. "I overheard the conversations, talked with the German headquarters in Oppeln and with the city authorities. All assured me they would give orders to subside. And do you know it is remarkable how quickly they quit and went home when they heard that he Britisher wanted that."

Then there was the case of Maj. MacKay at Gleiwitz. The Germans were threatening a clash with the French who had already brought out tanks. MacKay came out, talked a moment to the crowd, who, to his embarrassment, carried him away on their shoulders, and then finally upon his urgent request for dispersal, went back home leaving the excited Frenchmen with nothing to do.

Still another similar incident occurred to an English colonel, who told me afterward, "I can't love the Germans—far from it for they killed three of my brothers in the war. But, the situation here is simply driving me into their arms."

Still another similar incident a-came will do whatever we want them to. They have shown good restraint and discipline on the whole and have surely striven to meet our wishes and orders."

And when one talks with Germans he learns that they have the greatest affection for the English soldier-men.

It's somewhat picturesque to see a "Jock"—one of the Black Watch soldiers—fraternizing with a German "Apo"—or plebscote policeman—over a glass of beer. But it happens. And, it's another picture to see on the road from here to Stutendorf a stolid German and his frau giving a few Jocks a "lift" on their ancient haywagon. And, yet again, it's a picture to see a Britisher trying to teach a German the intricacies of soccer football. Or to see children and women showering the highlanders with flowers on their way through Oppeln.

It is, indeed, a long cry from "Gott starfe England" to "Gott sei dank" for English troops, come to rescue Germans.

Abysinnians are of mixed Semitic and Hamitic descent.

AH! EPSOM SALTS

LIKE LEMONADE

You can now buy epsom salts without the awful taste and nausea, by asking your druggist for a handy package of "Epsomade Salts" which looks and acts exactly like epsom salts, because it is real epsom salts combined with fruit derivative salts, giving it the taste of sparkling lemonade.

Take a tablespoonful in a glass of cold water whenever you feel bilious, headachy or constipated. "Epsomade Salts" is the much talked of discovery of the American Epsom Association.

U. S. LEADS IN RACE FOR TRADE

Keenest Struggle in History of
Commerce in Progress for Price-
less Treasure of South America

STAKES ARE 100,000,000 LBS.

Championship is Being Played Main-
ly in The Argentine Republic,
Says Sir Kingsley Wood

By A. J. WEST
(U. P. Staff Correspondent)

London, July 7.—South America is today the brightest jewel in the diadem of trading nations and one of the keenest struggles in the history of commerce is now in progress for possession of a priceless treasure.

This is the opinion of Sir Kingsley Wood, M. P., parliamentary private secretary to the Minister of Health, and as authority on South American trade and affairs.

"The championship is being played mainly in the Argentine Republic," said Sir Kingsley. "The stakes are 100,000,000 pounds and for the moment the United States are winning."

"Great Britain, it is only fair to say, was once the undisputed champion, nor need she be afraid of the reason why she was thrown off her form. It was the war that turned the Argentine competition upside down. It found us first and America second; it left us second; and America first. Not less significant, it sent Japan shooting ahead of Germany, France, Italy and Belgium."

"The arrival of Japan is a surprising event to many Englishmen. In 1915 she sold to Argentina just over 200,000 pound worth of wares. For the first six months of 1919, that total had leapt up to 3,450,000 pounds and it continues to rise. Chiefly it is a trade in cotton yarn, cotton drill, silk handkerchiefs, glossy silk, calico, socks and an assortment of toys, buttons and lead pencils. Japan, moreover, has opened a bank at Buenos Ayres, while several Japanese merchants are now in business there, and she has a line of steamers sailing regularly to the River Plate. Definitely, in short, Japan has arrived among the nations."

"As time goes on the race for first place in the Argentine market will probably be between the United States, Japan and Britain. As for Germany, her future in South America is as yet uncertain. Once upon a time she supplied Argentina with more than half of all the jewelry and metalware bought from the rest of the world."

"Today the agents of German manufacturers are back again offering chemicals and dyes, machinery and hardware at 'cut' prices. But abnormal competition of that sort admittedly cannot endure, and in any case it has not materially affected the main struggle between the United States and Britain."

"Here there is no reason why Great Britain should not take the lead as emphatically as she has done on the golf links. The Argentine people like us, and they like our methods. Millions of pounds of British capital have helped to develop their country."

"If the prize were the chief share in a yearly trade of one hundred million pounds, it would be well worth the striving for. It is much more than that. The Argentine is like Australia; she has just begun to grow, and nobody can mark the limits of her future. Could the wealth half a century hence of that practically virgin land be accurately foretold today, there are a few among us who would have the imagination to accept a picture of such prosperity. A population rather larger than Belgium's is living in a country bigger than the United Kingdom. Germany, France, Spain, Italy and Japan put together. Its possibilities are well nigh as vast as the need of the human race for meat and wheat to eat and wool to wear. It is ashore in these future possibilities as much as to win a present advantage that the nations strive in amicable rivalry."

"There is room for all, but the question is,—who will be first?"

BRYAN KNEW IT

Medina, N. Y. July 7.—"I think I ought to shake hands with you; I voted for you three times," ventured John Waldner, a local Democratic leader, as he approached W. J. Bryan here.

"So you're the fellow, are you?" smiled Bryan. "I knew some one did, but I never found out who it was."

Dr. and Mrs. McNab and son George, Jr., spent Sunday and Monday with friends in Columbus, Ind.

Anna and Edna Newsom spent Sunday with their grandfather here.

Mr. and Mrs. George Ewing were visitors in Shelbyville Monday.

Mr. and Mrs. Al McDaniel gave a six o'clock dinner for the following guests Monday: Mr. and Mrs. George Ewing, Mr. and Mrs. Irwin Renneberg and sons Glen and Ralph, Mr. and Mrs. James Perkins, and daughters Georgina and Stella, Mr. and Mrs. Fred Addison and children, Pauline and Fred Keith, Miss Myra Raymond and Rue McDaniel.

Mr. and Mrs. Wayne Linscott of Richmond are visiting relatives here for a week.

Mr. and Mrs. Orlando Zimmerman spent Monday in Greenfield.

Miss Emma Peacock is visiting friends in Kennard at present.

Mrs. Miranda Addison who has been ill continues to improve.

Mrs. Forrest Partis is ill at her home here with rheumatism.

Mr. and Mrs. Claude Henley and sons Lewis and Harold are visiting E. D. Lewis and other relatives here at present.

Our slogan still holds good "Want Ads bring results."

MODERN EVILS CONDEMNED

Christian Endeavor Convention Oc-
cupied With Reform and Uplift

(By United Press)

New York, July 7.—Immodest dress, immoral dances, prize fights and other "modern evils" were condemned at today's session of the Christian Endeavor World convention at the 71st Regiment Armory.

Formalities of opening the convention dispensed with, the Endeavorers settled down to discussion of reform and uplift.

It is estimated that close to 16,000 delegates have arrived.

STATE TAX LEVY TO BE HIGHER

Indiana Property Taxes For Year
1922 Will Not be Lowered. According to Reports

5 CENT INCREASE EXPECTED

Present Levy of 22 Cents Will be
Paid on Last Year's Valuation—Special Levies

(By United Press)
Indianapolis, Ind., July 7.—Indiana property owners' cry for lower taxes will not be heard for the year 1922 at least, it was learned here today.

The state-wide tax levy on Indiana property, which will be payable in 1922, will be increased at least five cents on each one hundred dollars worth of property which is taxable according to reliable information.

Fred A. Sims, former chairman of the state tax board, estimated that the valuation of property would drop at least ten percent. This Sims said would cause the tax levy to be increased at least ten percent.

The present tax levy, which will be paid on the last year's valuation is twenty-two cents. The new special levies created by the legislature will increase this to at least twenty-seven cents, according to a conservative estimate.

According to Sims, the legislature at its last session increased the special levies considerable. Special levies for the departments of state least five cents on each one hundred dollars worth of taxable property, he said.

While the legislature was in session, an unofficial estimate of the new tax levy was made by certain solons. Some members estimated that the levies for 1922 would be twenty-six cents while others figured it as high as thirty cents.

Should the valuations fall lower than ten percent it was explained it would tend to increase the tax levy.

WATCHMAN IS BEATEN

Chicago, July 7.—John Blomberg, watchman for the Old Reliable Truck company, was brutally beaten by three bandits who escaped with \$1,200 from the company's safe. Blomberg is near death.

SEEK FINAL ACTION ON BORAH PROPOSAL

Disarmament Supporters Demand
Conference of United States,
Great Britain and Japan

PLAN HAS BEEN APPROVED

(By United Press)
Washington, July 7.—Disarmament supporters today demanded final action on the Borah proposal authorizing President Harding to call a conference of the United States, Great Britain and Japan.

The Borah plan has been approved but it is part of the naval appropriations bill as yet unpassed. Unless the bill is disposed of, this week disarmament backers let it be known they will bring before congress the need of getting into the hands of President Harding the authority the Borah plan provides.

Foreign statesmen are beaming more and more open in their hints to the United States that an invitation to a disarmament conference would be instantly accepted.

Senator Borah has had several extended conferences with Shigeo Suyehiro, of Kyoto University of Japan. Suyehiro is in the United States in the interest of the disarmament movement. He said today that the Japanese people burdened with taxes, would eagerly welcome the discussion of naval reduction or anything else that would relieve them of their taxes.

STARTS COLLECTING DELINQUENT TAXES

Government Begins Task of Getting
Share of Unpaid Money on
Luxury Taxes

BIG FORCE IS EMPLOYED

(By United Press)
Washington, July 7.—Uncle Sam today started to collect the "chicken feed" being held out on him.

A force of 250 revenue officers directing 2,000 deputy collectors are out to collect delinquent sales taxes. Under the head of sales taxes, come the extra pennies on ice cream and soda water, the luxury and semi-luxury levies.

The "flying squadron" of revenue officers now is paying particular attention to New York, Boston, Pittsburgh, Baltimore, Atlanta, New Orleans, Cleveland, Chicago, St. Paul, Minneapolis, St. Louis, Dallas, Denver and San Francisco.

As soon as this force concludes its investigation in those cities, it will be transferred to Philadelphia, Birmingham, Louisville, Cincinnati, Milwaukee, Fort Worth, Houston, Texas and Salt Lake City.

LOCATES IN GRAND HOTEL

Dr. D. D. Drago has established his veterinarian offices at the Square Deal Vulcanizing shop in the Grand Hotel building. His office was formerly in the Carr building that was destroyed by fire a week ago. His former telephone number of 1305 is still retained.

Personal Points

—Joe Clark was a business visitor in Indianapolis today.

—Clem Kennedy of Terre Haute formerly of this city, is here visiting friends for a few days.

—Mrs. Lenora Blackledge and family left for Winona Lake, for a several weeks outing, this morning.

—Mrs. May Mitchell has gone to Indianapolis for a visit with her daughter, Mrs. Ernest Morris, and family.

—Joe Miller, a former Rushville man who has been visiting relatives in Rushville and at Milroy for a few days, left last night for his home in Warsaw.

—Mrs. M. R. McDaniel and daughter Katherine returned this morning to their home in Chicago, after a visit with Mr. and Mrs. John A. Spurrier of North Morgan street.

—Mr. and Mrs. W. T. Smith and Miss Ada Millhousen of Indianapolis returned to their home Monday evening after a few days visit with Mr. and Mrs. Harry York of near Glenwood.

—Mr. and Mrs. J. W. Brown and son Gilbert, formerly of Rushville, have returned to their home in Hammond, Ind. They were called here by the death of their brother-in-law, M. C. Bass of Morristown, Ind.

—Paul Guffin and Harold Mauzy left last night for their home in Gary, Ind., after being called here by the death of Mr. Guffin's mother, Mrs. George Guffin. His sister, Mrs. Chestina Mauzy, accompanied them home for a stay of a few weeks.

—Mrs. A. N. Marlatt arrived here last evening for a short visit with her daughter, Mrs. J. H. Scholl and family, while enroute home from Kenosha, Wis., where she attended the wedding of her son, Ernest Marlatt, and Miss Mary Remer of Kenosha.

—Miles S. Cox and Guy Mulbarer transacted business in Shelbyville today.

—Mrs. W. E. Wallace left today for Indianapolis where she will make an extended visit.

—Miss Gladys Wallace has gone to Detroit, Mich., for an extended visit with relatives and friends.

—Mrs. Denny Ryan accompanied Mrs. Lena Collier to Indianapolis, yesterday. Mrs. Collier will take treatment at the St. Joseph's Hospital at Beech Grove.

—Mrs. Warder Wyatt and children, Katherine, Mary Louise, Martha and John, left yesterday for Bay View, Michigan, where they will spend the summer.

—Mr. and Mrs. Will Carroll and children, Robert and Betty, of Plymouth, Ind., formerly of this city, and Miss Helen Black of this city, are the guests of Mr. and Mrs. Frank Cannon at Greencastle, Ind. Mrs. Cannon was formerly Miss Esther Black of this city.

GOOD RESULTS FROM
DRAFT EVADERS LIST

Since Publication of Deserter's
Names 500 Arrests Have Been
Made and Many are Tried

ENTIRE LIST INCLUDES 60,000

Washington, July 7. — The apprehension of nearly 500 draft deserters since the publication of the slacker lists began has justified the position of The American Legion and veterans of the world war in general in their desire to have the lists published.

More than half of the 60,000 names of draft deserters have been published, according to information obtained by officials of the Legion. The unpublished names are being released at a rate that should complete their publication in the next five weeks.

Of the approximately 500 deserters who have been apprehended, about 200 have been tried and 80 convicted. Members of The American Legion have assisted in running down the deserters.

Both Secretary Weeks and Adjutant General Harris have pointed out to American Legion officials that in addition to bringing hundreds of deserters to justice and branding thousands more, the publication of the lists has cleared the service records of men who served or who had just cause for exemption, but who failed to comply with some requirements of the selective service act and were therefore listed as deserters.

* Charles Kettleborough *
* Is Always on The Job *

Indianapolis, Ind., July 7.—The old theory that when a man gets a position in the state house or public office he virtually quits work and has a vacation is not true in all state offices, especially in the office of Charles Kettleborough head of the legislative reference bureau.

Kettleborough, who has been head of the bureau for four or five years is always on the job, from sun up to sun down, all day Saturday Sunday and Holidays.

When some one does not remember when a certain law was passed by the legislature or when so and so was a representative, or when James A. Mount was governor of Indiana this information can be obtained from Kettleborough—and it does not take him half an hour to look it up. Questions pertaining to persons, laws and departments concerning Indiana directly or indirectly Kettleborough can answer momentarily.

Motion picture shows never enter into the life of this man who prefers to sit in his office and read about the bills passed by the Georgia legislature or the League of Nations. Laws and history are fiction to Kettleborough, where the average man of his age would rather go to a movie or read a Ring Lardner story about a boob prize fighter.

Like the hermit that disappeared and went into his cave and lived by himself Kettleborough is a bachelor and lives alone. He is always business and never wastes the states valuable time.

WALLACE RETURNING HOME

Paris, July 7.—Hugh C. Wallace, retiring American ambassador to France, left here Wednesday to return to the United States on the Olympic. About a hundred friends bade him farewell including Marshal Foch, General Weygant, former premier Peret.

TO EXAMINE STATE'S
ELECTRIC EQUIPMENT

Purdue Engineers Will Visit All State
Institutions to Test Equipment
Being Used

TO MAKE RECOMMENDATIONS

(By United Press)

Indianapolis, Ind., (July 7).—Examination of the electrical equipment of all state institutions, to ascertain whether or not the state is getting a sufficient amount of current for the equipment used will be made in the near future by electrical engineers of Purdue University, it was learned here today.

It is understood that the survey of all state institutions to ascertain ment will be made at the request of Governor McCray.

The governor, it was said is not satisfied with the showing made by the machinery now used for this purpose. Too much coal is being used to make the electrical energy, and the governor with his campaign pledge of economy, is contemplating having the investigation made to ascertain what improvement should be made.

Should the investigators find that any changes should be made it is

likely that the governor will recommend to the legislature the changes that are necessary.

It is understood that some institutions have reported they are not getting the required amount of electrical energy from the motors, and dynamos that are being used.

This examination would also tend to show the legislature what condition the mechanical equipment of the institutions are in and what it would have to appropriate to put them in repair.

THREE DEFENDANTS LET OUT

Trio Accused in "Ice Trust" Suit
Successful on Motions to Dismiss

(By United Press)

Indianapolis, Ind., July 7.—Suits against three defendants named in the state's ice trust busting efforts were dismissed today when Special Judge Eichorn of Bluffton opened hearings on Attorney General Lesh's application for restraining order to prevent operation of an alleged trust in Indianapolis.

This left ten firms and one individual named in the case. It was thought the judge would rule on the application this afternoon.

The light of Eddystone lighthouse in the English Channel is visible in clear weather for 17½ miles.

The Hague is one of the handsomest cities in Holland.

Kidney and Bladder Troubles Conquered or Money Back

For 40 years, said Dr. Carey, I have been prescribing Marshroot for kidney and bladder sickness and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price, on the money back if dissatisfied plan.

Beware of kidney disease—thousands die of it every year who ought to be enjoying the blessing of life and health. Watch the symptoms. If you have specks floating before the eyes, puffy eyes, clammy feet or moist palms, backache or sideache, you ought to get a bottle of Dr. Carey's Marshroot right away.

It has wonderfully benefited tens of thousands of cases of kidney and bladder troubles and is the medicine you can always depend upon. Results are guaranteed.

NOTE.—Dr. Daniel G. Carey was a practicing physician for many years and his great Prescription, Marshroot aided thousands of sufferers from kidney and bladder troubles. Hereafter you can always get this effective Prescription at all reliable pharmacists the country over. Keep in mind the name, Dr. Carey's Marshroot prescription No. 777. No other medicine can take its place.

Don't Burn Good Fuel in a Poor Stove.

TAKE

PEPSINCO

It's a useless waste of good fuel and needless extravagance to try to burn it in a poor stove. It is absolutely wrong to expect good food to supply energy, vitality, health and happiness, if your stomach won't absorb and assimilate it. If you cannot eat with enjoyment; if your food does you no good; if food distresses, rather than benefits, then you have indigestion or dyspepsia. The best remedy to use is PEPINCO.

Ask your druggist—he sells and recommends Pepsinco.

TRUCK FEVER HITS MOST STATES HARD

Senator Wadsworth Believes Free Distribution of Government Property Has Gone Far Enough

SHORTAGE OF MOTOR TRUCKS

Law Authorizes Secretary of War to Turn Trucks Over to Agricultural Department

By L. C. MARTIN (U. P. Staff Correspondent)

Washington, July 7.—When the war was won, so many American cities and villages wanted captured German cannon and machine guns that it looked as though Uncle Sam would have to order a lot of them from the Krupps to give away. It now develops that this demand for souvenirs was paralleled by a demand for more practical things, which has "bankrupted" the War Department in one item, and has bitten deeply into its supplies in other ways.

Motor vehicles, trucks, mostly, lead the list. The free distribution of these to the states is a "scandal," Senator Wadsworth, chairman of the senate military affairs committee declares.

"I may be utterly alone in my opinion," Wadsworth said, "but this debauch of the free distribution of government property has gone far enough. I can well understand the appetite that is aroused in a State Highway commissioner when he understands that the war department owns a lot of trucks and that there is a law authorizing the secretary of war to turn those trucks over to the agricultural department, free of charge, to be given to the states.

"The drive for these trucks has ramifications all over the country. All they have to do is 'press the button' and the people interested in the building of roads write and wire asking that the war department be directed to turn over trucks."

As a result, Wadsworth said, the war department is short in motor trucks required for its own peace time uses 1505 truck and 487 passenger cars, and has some 4000 automobiles on hand that wouldn't run and can't be sold for anything but junk.

The motor truck "pork barrel" has yielded the states 26,423 trucks and spare parts valued at \$7,271,735, Wadsworth says. The allocations by states range from 39 to Delaware, up to 1047 to Pennsylvania. New York state got 1024; Ohio, 620, and other states from 100 to 800 trucks apiece. Only a few states have failed to get some trucks, Wadsworth's list shows.

Some of them not only got motor trucks, he says, but canned goods from army stores left after the war and other supplies.

FEARS NO OPPOSITION FOR NEW'S REELECTION

Harry G. Hogan, Party Leader, Says He Believes Senator Will Have Clear Way for 1922 Election

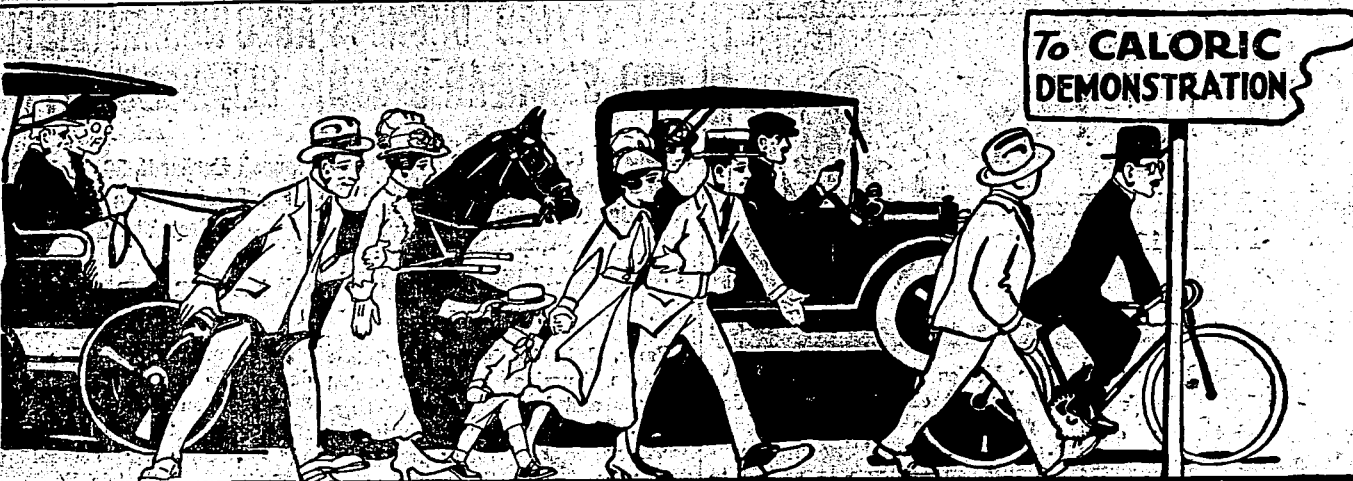

IS A COMPETENT SENATOR

Washington July 7.—That the Republicans in Indiana generally will resent any opposition to Senator Harry S. New for renomination for United States Senator, is the conclusion reached by Harry G. Hogan, of Fort Wayne, a party leader of high standing, who was recently interviewed by the Indianapolis correspondent of the Cincinnati Enquirer.

"My conviction is that the people of Indiana look upon Senator New as a very competent Senator," said Mr. Hogan to the Enquirer correspondent. "That being the case I am sure that most of them will resent any attempt to defeat him. I am convinced further that a majority of the active members of the party will feel that an effort to defeat Senator New in the primary election next year will result in bitterness and party strife."

According to the correspondent, Mr. Hogan to the Enquirer correspondent of Senator New's campaign, but his "business" interests at Ft. Wayne are such that he will have to remain in that city most of the time. However, he will look after the Senator's interests in northern Indiana. Mr. Hogan was the Indiana manager for Major General Leonard Wood in the presidential primary contest last year.

Some people say that sanitation doesn't pay. Well, it doesn't pay doctors and grave-diggers, says the U. S. Public Health Service. Be sanitary; seek health before you need it.

MANY MOVIE HOUSES STARTED BY SOVIET

New York, July 7.—Traips equipped with motion picture machines and films are being run through Siberia, giving exhibitions at each railroad station, according to Julius Kohner, Czecho-Slovakian cinema authority and publisher of "Filmsechau" one of the well known international trade journals, just arrived in this country.

The Soviet government is strongly in favor of the development of motion pictures and is paying great attention to the community effects of "movie" theaters, he says. The Lenin-Trotsky government has encouraged the erection of picture play houses, which are operation by a commission of the Soviet government.

There are today some 3,000 picture houses in Russia and more are being added constantly, Kohner declares. A very large opening awaits American pictures in Russia as soon as trade agreements are established between that country and the United States. Virtually no production is going on in Russia.

THIS TIME LAST YEAR

Pittsburgh completed a triple play against the Phils. Lefty Cooper caught a fly, threw to Caton at second and he completed the play to Grimm at first. With the score tied in the eighth inning, the Cubs scored five runs and beat the Cards. The Athletics beat the Red Sox twice.

Watching The Score Board

Yesterday's hero—Grimm. The Pirate first baseman doubled in the thirteenth inning after Cutshaw had singled, beating the Cards 3 to 2.

Burlleigh Grimes not only baffled the Giants from the box, but he got a homer, a double and two singles, helping Brooklyn win 11 to 4.

The Braves mauled three Phil pitchers and won 11 to 6. Konetchy in his first game with the Phils got three hits and drove in four runs.

Red Faber let the Tigers down with four hits and the White Sox won 2 to 0.

Washington and the Red Sox split a doubt header. The Sox won the opener 2 to 1 in 12 innings, but dropped the second 1 to 0.

ABANDONS ALASKA TRIP

President Harding Will Remain in
Washington This Summer

(By United Press)

Washington, July 7.—The United States government has decided to remain in Washington this summer.

President Harding, it was learned today, has about given up hope of going to Alaska, a trip which he planned to make if congress adjourned.

A poll of cabinet today showed that all of the members have made plans to stay here.

The Senate today was on record against a recess. House leaders said they planned to work ahead on tariff and taxation.

They Have Better Opinion of Ger-
man Than Pole Because He Has
Obeyed All Orders

By CARL D. GROAT
(U. P. Staff Correspondent)

Oppeln, Upper Silesia (By Mail).—The one-time German hate of England has turned to something akin to love. Proof of this is to be found anywhere amongst the German population of Upper Silesia. One needs only to ask a German what he thinks about the English attitude toward Germany in the Silesian question to learn that he is highly pleased. And one needs only to see how the German, for the most part, has willingly obeyed any and all commands or wishes of the English controllers to learn that the hymn of hate has turned to praise.

And, while the Englishman hasn't learned to love the German, he has a better feeling for him hereabouts than he has for the Pole or even for his allied brother, the Frenchman. In fact, the relations between Frenchmen and Englishmen in this neck of the woods are about as pleasant as those of a couple of strange bulldogs, even though the outward conduct and proprieties are observed.

I talked the other day with a high English officer in one of the unpleasant communities of this whole topsyturvy district.

"The Germans were threatening to start an offensive, and were even talking of beating up the French," he told me. "I overheard the conversations, talked with the German headquarters in Oppeln and with the city authorities. All assured me they would give orders to subside. And do you know it is remarkable how quickly they quit and went home when they heard that he Britishe wanted that."

Then there was the case of Maj MacKay at Gleiwitz. The Germans were threatening a clash with the French who had already brought out tanks. MacKay came out, talked a moment to the crowd, who, to his embarrassment, carried him away on their shoulders, and then finally upon his urgent request for dispersal, went back home leaving the excited Frenchmen with nothing to do.

Still another similar incident occurred to an English colonel, who told me afterward, "I can't love the Germans—far from it for they killed three of my brothers in the war. But, the situation here is simply driving me into their arms."

Still another similar incident aca- mans will do whatever we want them to. They have shown good restraint and discipline on the whole and have surely striven to meet our wishes and orders."

And when one talks with Germans he learns that they have the greatest affection for the English soldier-men.

It's somewhat picturesque to see a "Jock"—one of the Black Watch soldiers—fraternizing with a German "Apo"—or plebsite policeman—over a glass of beer. But it happens. And, it's another picture to see on the road from here to Stundorf a stolid German and his frau giving a few Jocks a "lift" on their ancient haywagon. And, yet again, it's a picture to see a Britisher trying to teach a German the intricacies of soccer football. Or to see children and women showering the highlanders with flowers on their way through Oppeln.

It is, indeed, a long cry from "Gott starfe England" to "Gott sei dank" for English troops, come to rescue Germans.

Abysinnians are of mixed Semitic and Hamitic descent.

AH! EPSOM SALTS

LIKE LEMONADE

You can now buy epsom salts without the awful taste and nausea, by asking your druggist for a handy package of "Epsomade Salts" which looks and acts exactly like epsom salts, because it is real epsom salts combined with fruit flavoured salts, giving it the taste of sparkling lemonade.
Take a tablespoonful in a glass of cold water whenever you feel bilious, headachy or constipated. "Epsomade Salts" is the much talked of discovery of the American Epsom Association.

U. S. LEADS IN RACE FOR TRADE

Keenest Struggle in History of
Commerce in Progress for Price-
less Treasure of South America

STAKES ARE 100,000,000 LBS.

Championship is Being Played Main-
ly in The Argentine Republic,
Says Sir Kingsley Wood

By A. J. WEST
(U. P. Staff Correspondent)

London, July 7.—South America is today the brightest jewel in the diadem of trading nations and one of the keenest struggles in the history of commerce is now in progress for possession of a priceless treasure.

This is the opinion of Sir Kingsley Wood, M. P., parliamentary private secretary to the Minister of Health, and as authority on South American trade and affairs.

"The championship is being played mainly in the Argentine Republic," said Sir Kingsley. "The stakes are 100,000,000 pounds, and for the moment the United States are winning."

"Great Britain, it is only fair to say, was once the undisputed champion, nor need she be afraid of the reason why she was thrown off her form. It was the war that turned the Argentine competition upside down. It found us first and America second; it left us second; and America first. Not less significant, it sent Japan shooting ahead of Germany, France, Italy and Belgium."

"The arrival of Japan is a surprising event to many Englishmen. In 1915 she sold to Argentina just over 200,000 pound worth of wares. For the first six months of 1919, that total had leapt up to 3,450,000 pounds and it continues to rise. Chiefly it is a trade in cotton yarn, cotton drill, silk handkerchiefs, glossy silk, calico, socks and an assortment of toys, buttons and lead pencils. Japan, moreover, has opened a bank at Buenos Ayres, while several Japanese merchants are now in business there, and she has a line of steamers sailing regularly to the River Plate. Definitely, in short, Japan has arrived among the nations."

"As time goes on the race for first place in the Argentine market will probably be between the United States, Japan and Britain. As for Germany, her future in South America is as yet uncertain. Once upon a time she supplied Argentina with more than half of all the jewelry and metalware bought from the rest of the world."

"Today the agents of German manufacturers are back again offering chemicals and dyes, machinery and hardware at 'cut' prices. But abnormal competition of that sort admittedly cannot endure, and in any case it has not materially affected the main struggle between the United States and Britain."

"Here there is no reason why Great Britain should not take the lead as emphatically as she has done on the golf links. The Argentine people like us, and they like our methods. Millions of pounds of British capital have helped to develop their country."

"If the prize were the chief share in a yearly trade of one hundred million pounds, it would be well worth the striving for. It is much more than that. The Argentine is like Australia; she has just begun to grow, and nobody can mark the limits of her future. Could the wealth half a century hence of that practically virgin land be accurately foretold today, there are a few among us who would have the imagination to accept a picture of such prosperity. A population rather larger than Belgium's is living in a country bigger than the United Kingdom. Germany, France, Spain, Italy and Japan put together. Its possibilities are well nigh as vast as the need of the human race for meat and wheat to eat and wool to wear. It is ashore in these future possibilities as much as to win a present advantage that the nations strive in amicable rivalry."

"There is room for all, but the question is,—who will be first?"

BRYAN KNEW IT

Medina, N. Y. July 7.—"I think I ought to shake hands with you," I voted for you, three times," ventured John Waldner, a local Democratic leader, as he approached W. J. Bryan here. "So you're the fellow, are you?" smiled Bryan, "I knew some one did, but I never found out who it was."

County News

Mauzy

Mr. and Mrs. J. E. Wynn and son Carl spent Sunday with Mr. and Mrs. Ernest Beringer north of Rushville.

Miss Frances Morris was the guest of her cousin, Miss Leland Hunt, in Rushville several days last week.

Norman King of Raleigh sang a solo at Sunday school last Sunday.

Mr. and Mrs. W. B. Morris and daughter, Mr. and Mrs. W. M. Brooks and sons, Mrs. Hattie Griffin and Mr. and Mrs. Thomas Bishop and family spent the Fourth at Green's Camp near Rushville.

Charley Webb of Carthage is the guest of Robert Bishop for a few days.

Several people of Charlottesville attended church at Ben Davis Creek Sunday night.

Mr. and Mrs. William Clifford and son William and wife and grandson and granddaughter were the guests of Mr. and Mrs. John Arnold and family Sunday.

Our slogan still holds good "Want Ads bring results."

MODERN EVILS CONDEMNED

Christian Endeavor Convention Oc-
cupied With Reform and Uplift

(By United Press)

New York, July 7.—Immodest dress, immoral dances, prize fights and other "modern evils" were condemned at today's session of the Christian Endeavor World convention at the 71st Regiment Armory.

Formalities of opening the convention dispensed with, the Endeavorers settled down to discussion of reform and uplift.

It is estimated that close to 16,000 delegates have arrived.

STATE TAX LEVY TO BE HIGHER

Indiana Property Taxes For Year 1922 Will Not be Lowered, According to Reports

5 CENT INCREASE EXPECTED

Present Levy of 22 Cents Will be Paid on Last Year's Valuation—Special Levies

(By United Press)

Indianapolis, Ind., July 7.—Indiana property owners' cry for lower taxes will not be heard for the year 1922 at least, it was learned here today.

The state-wide tax levy on Indiana property, which will be payable in 1922, will be increased at least five cents on each one hundred dollars worth of property which is taxable according to reliable information.

Fred A. Sims, former chairman of the state tax board, estimated that the valuation of property would drop at least ten percent. This Sims said would cause the tax levy to be increased at least ten percent.

The present tax levy, which will be paid on the last year's valuation is twenty-two cents. The new special levies created by the legislature will increase this to at least twenty-seven cents, according to a conservative estimate.

According to Sims, the legislature at its last session increased the special levies considerable. Special levies for the departments of state least five cents on each one hundred dollars worth of taxable property, he said.

While the legislature was in session, an unofficial estimate of the new tax levy was made by certain solons. Some members estimated that the levies for 1922 would be twenty-six cents while others figured it as high as thirty cents.

Should the valuations fall lower than ten percent it was explained it would tend to increase the tax levy.

WATCHMAN IS BEATEN

Chicago, July 7.—John Blomberg, watchman for the Old Reliable Truck company, was brutally beaten by three bandits who escaped with \$1,200 from the company's safe. Blomberg is near death.

WE WAGER

that 90 out of every 100 homes in Rushville and Rush County can be heated with a **CALORIC PIPELESS FURNACE**—that they can be heated better and more economically. We will issue a Monitor Ironclad guarantee on every Caloric installed, and—

WE OFFER

to any person, a 30 day trial in cold weather in order to prove our claims.

We will explain our proposition either at your home or at our place of business.

SEEK FINAL ACTION ON BORAH PROPOSAL

Disarmament Supporters Demand Conference of United States, Great Britain and Japan

PLAN HAS BEEN APPROVED

(By United Press)

Washington, July 7.—Disarmament supporters today demanded final action on the Borah proposal authorizing President Harding to call a conference of the United States, Great Britain and Japan.

The Borah plan has been approved but it is part of the naval appropriations bill as yet unpassed. Unless the bill is disposed of, this week disarmament backers let it be known they will bring before congress the need of getting into the hands of President Harding the authority the Borah plan provides.

Foreign statesmen are beaming more and more open in their hints to the United States that an invitation to a disarmament conference would be instantly accepted.

Senator Borah has had several extended conferences with Shigeo Suyehiro, of Kyoto University of Japan. Suyehiro is in the United States in the interest of the disarmament movement. He said today that the Japanese people burdened with taxes, would eagerly welcome the discussion of naval reduction or anything else that would relieve them of their taxes.

STARTS COLLECTING DELINQUENT TAXES

Government Begins Task of Getting Share of Unpaid Money on Luxury Taxes

BIG FORCE IS EMPLOYED

(By United Press)

Washington, July 7.—Uncle Sam today started to collect the "chicken feed" being held out on him.

A force of 250 revenue officers directing 2,000 deputy collectors are out to collect delinquent sales taxes. Under the head of sales taxes, come the extra pennies on ice cream and soda water, the luxury and semi-luxury levies.

The "flying squadron" of revenue officers now is paying particular attention to New York, Boston, Pittsburgh, Baltimore, Atlanta, New Orleans, Cleveland, Chicago, St. Paul, Minneapolis, St. Louis, Dallas, Denver and San Francisco.

As soon as this force concludes its investigation in those cities, it will be transferred to Philadelphia, Birmingham, Louisville, Cincinnati, Milwaukee, Fort Worth, Houston, Texas and Salt Lake City.

LOCATES IN GRAND HOTEL

Dr. D. D. Dragoo has established his veterinary offices at the Square Deal Vulcanizing shop in the Grand Hotel building. His office, was formerly in the Carr building that was destroyed by fire a week ago. His former telephone number of 1305 is still retained.
